

### How do I find out more?

We want your educational experiences with us to be ones that the children remember for ever, so it's important that we get things right for your visit.

You are encouraged to visit the farm to see what we can offer and to help us design the right experience for you.

Please phone or email Carlshead Care Farm to make an appointment.

*"There is always one moment in childhood when the door opens and lets the future in." - Deepak Chopra*

### Where to find us

We are located down the end of Paddock House Lane off Kirkby Lane just out of the village of Sicklinghall.

Coming from Wetherby, take the A661 towards Harrogate and take the left turn to Sicklinghall. Drive through the village and take the first left turn half a mile out of the village marked Paddock House Lane. Drive to the end of the lane where you will find the car park.

*"The important thing is not to stop questioning. Curiosity has its own reason for existing."  
Albert Einstein*

## Primary Learning with a Creative Approach!

### Who are we?

Carlshead Care farm is a not-for-profit organisation. We understand that budgets are tight at the moment and so we're keen to offer you a high value curriculum experience which really adds value to your own work, and yet fits your budget.

Imagine being able to access a high quality educational venue where your curriculum really can come to life, where your "field trips" make genuine links to your curriculum and yet have a real impact on learning.

Based in 540 acres on a farm land estate, with woods, ponds, horses, sheep, cattle and alpacas as well as a range of both indoor and outdoor classrooms, Carlshead could well be the ideal location to support your curriculum. Explore the diversity of the area looking out for badgers, red kites, herons, rabbits, squirrels and so much more!

A walk to Hermit's Hill can be the focus for exploring work on myths & legends as well as creative art or writing as you explore the local legend of the Hermit! Develop children's skills in story-telling and develop a range of aspects in your creative curriculum.

Learn about the flora & fauna of the estate & learn about beekeeping, or work in the woods to build shelters, make willow sculptures or develop emotional health & well being as well as leadership & team work in your students.

The natural beauty of the scenery combined with access to the River Wharfe supports work with Geography and settlements whilst the ponds and outdoor classrooms lend themselves naturally to helping your science curriculum spring to life.

Plan visits across the year to see the work of the farm during different seasons from lambs in the spring to harvesting in late summer.

We offer you the opportunity for your visit to be fully led by our experienced staff or you may wish for us to simply facilitate your visit to make sure you get the most out of your time with us.

That's why we design your experience your way!
